Boston, Mass.,

Gentlemen:

It gives us pleasure to report that the house, which is printing our "Scrap-Book" pamphlet, states that the electrotypes we sent (made by you) are the best it has used.

We would further say that we do not recall any imperfect electrotype, among the thousands you have made for us, during the past several years.

Very sincerely yours,

Advertising Department,
POPE MFG. CO.,

Do not buy any more "Poor Rubber Hose," but put your money in the

"SPIRAL" COTTON HOSE.

Lighter, Cheaper and Better than the Best Rubber Hose.

Made on the same principle as the rubber lined hose used in Fire Departments, which last for years.

The cotton duck used in all rubber hose draws in water wherever exposed, as a wick absorbs oil, and being confined by rubber generates a sulphurous gas, quickly destroying the best rubber hose. The "Spiral" Hose having no outside covering to imprison the moisture, will dry like a towel.

There are imitations, so buy only that which has one red line running through it, and which is branded "Spiral," patented March 30, 1880. If your dealer does not have it in stock let him get it.

Lighter, Cheaper and Better than the Best Rubber Hose.

Made on the same principle as the rubber hose now used in fire departments, which last for years.

The cotton hose used in all rubber hose throughout, in water wherever exposed, as a wick, absorbs oil, and being crushed by rubber concrete is impervious, quickly destroying the best rubber hose. The "Spiral" hose having no outside covering to prevent the moisture will dry like a hose.
